An asterisk (*) denotes foundational knowledge or basic proficiency in specific areas.

Additional Experience

Courses and Achievements

2025
- **CTF at Equinor,** Participated with UiACTF in Equinor's CTF. We achieved a strong 12/33 placement among participating students and 44/100 overall among all teams (CTFTime).
- **CTF with NNS,** Norwegian Keysmiths organized a CTF at the University of Agder. Our team placed 31/398 overall and 5th place among students in Norway (CTFTime).
- **CTF at The Gathering,** Participated in TG Hack at The Gathering and achieved 8th place.
- **Guided Tour with UiA at CERN,** Participated in a guided tour and attended presentations from former students working at CERN.

2023
- **Windows Server and Azure**, Completed theoretical coursework and lab exercises.
- **GDPR and Privacy**, Participated in a 6-hour course at IKT-Agder.

Various IT Experience

2025
- **Website/blog**, Various projects and academic work published at jonathancf.dev.
- **UiASub**, Member of the Data department in the student organization UiASub. Primarily responsible for communication between the different components of the ROV that we also develop. Additionally responsible for developing and maintaining the UiASub website (here).
- **Website for UiASub**, Actively updated and contributed to uiasub.no. Currently developing a new site at uiasub.github.io and working on additional related projects.
- **UiACTF**, Participate in various CTF competitions with the student organization UiACTF, which is part of BetaSec—another student organization that *organizes and coordinates social and academic events* for cybersecurity, computer engineering, ICT, and artificial intelligence.
